

#	Title	First author
1570252288	Practical Software Radio: Leveraging the SDR Revolution for Wireless Communications Applications	Jack L. Burbank, Russell S. Nadler
1570254764	Low-Cost Massive MIMO: From Theory to Practice	Shi Jin and Feifei Gao
1570254887	Wireless Proactive Caching for 5G	Ejder Bastug and Mérouane Debbah
1570259793	5G Wireless Communications: Enabling Technologies and Resource Management	Lingyang Song and Zhu Han
1570260490	Energy-Neutral System-Level Analysis and Optimization of 5G Networks	Alessio Zappone, Marco Di Renzo, and Eduard Jorswieck
1570260825	Stochastic Point Process Techniques to Model Time Dependent Problems in Broadband Wireless Networks	Krishna Iyer and Vijayalakshmi Chetlapalli
1570260847	Wireless Communications and Networking with Unmanned Aerial Vehicles	Walid Saad and Mehdi Bennis
1570260921	Hands-on 5G: From theory to practice	Jacobus (Kobus) Van der Merwe and Kirk Webb
1570261170	The Massive MIMO Paradigm - Fundamentals and State-of-the-Art	Emil Björnson
1570261933	On Network Softwarization	Tarik Taleb
1570262626	Challenges and Solutions for Networking in the Millimeter-wave Band	Joerg Widmer
1570262710	Stochastic Geometry-Based Modeling and Analysis of 5G Cellular Networks: A Tutorial	Ekrum Hossain
1570262948	Quantum Communications	Robert Malaney
1570263128	Heterogeneous Statistical QoS Provisioning for CRNs Based Multimedia 5G Mobile Wireless Networks	Xi Zhang
1570263134	Wireless Powered Communication: From Theory to Applications	Rui Zhang
1570263295	Signal Processing for Millimeter Wave Wireless Communications	ROBERT W. HEATH JR., and NURIA GONZÁLEZ-PRELCIC
1570263323	Dynamic Spectrum Sharing Framework in CBRS/3.5GHz Band through Spectrum Access System	Kamran Etemad
1570263413	Network Localization and Navigation: from Theory to Practice	Moe Z. Win and Andrea Conti
1570263469	Leveraging Big Sensed Data in the IoT: Challenges and Future Outlook	Hossam Hassanein & Sharief Oteafy
1570263559	Breaking the RF Spectrum Crunch: Recent Advances in Optical Wireless	Lajos Hanzo
1570263596	Dedicated Short Range Vehicular Communications: Overview, Technical Challenges, and Applications	John B. Kenney and Gaurav Bansal
1570263602	Next Generation Satellites: an Interference-limited paradigm	Ana I. Pérez-Neira and Miguel A. Vázquez
1570277501	Understanding Key Technologies for Customer Experience Management in 5G	Haris Gacanin and Alexander M. Wyglinski
1570277502	Computer Networks, Present, and Future: Something Old, Something New, Something Borrowed, and Something Blue	Radia Perlman and Donald E. Eastlake III
